Hi, I'm Yasir Ölmez.

Congratulations on getting **accepted as a INSTRUCTOR candidate for the QTraining for Nickel 7 workshop** jointly organized by QTurkey, QGermany, QSpain!
As a reminder, the event will be held **19-20-21/27-28 May** and we wish you educational and happy weeks ahead!

We will be using Discord for almost all further communication regarding the event. *If you're new to Discord*, check this out (https://www.youtube.com/watch?v=TJ13BA3-NR4)

During this workshop, for maximum learning, it is important for you to follow the Jupyter materials required for the **workshop BEFORE each lecture and attend lectures and meetings to be held using Zoom and/or Google Meet**. Course and meeting recordings and the visuals in the recording content will be published by QWorld and QCousins on certain social media tools, except some recordings will be shared only with the participants who are accepted to the workshop. The Discord server is also where you can communicate with our organizers, trainers and mentors. So again, if you don't have a Discord account, do create one and join the workshop server using the link in the email. Please make sure that your Discord name on the server is the same as on the application form.

During the lessons and meetings to be held on the workshop server and throughout the workshop, it is important to be civil strictly follow the Code of conduct.

If you have questions about the workshop, reach out to us using the **workshop's Discord server first.** If you wish, you can email us to "nickeltraining23 [at] qworld.net" too.

We as QWorld aim to build an open and welcoming quantum community, and we are volunteering with the main aim of helping YOU get started in the field. So do not hesitate to reach out to us if you have any questions or doubts. **Remember, there are ABSOLUTELY NO stupid questions**!
